

Legend

- : ELAN Block
- $+$: Added Operation
- σ : Sigmoid Function
- U : Upsample Operation
- C : Concatenation Operation

40
256

The output size for the block or operation is (40, 40, 256).

N : Non-Maximum Suppression Operation

M_a : Multiplication operation, times = a

Max- n : Max pooling Layer, kernel size = n
